

**PAWLEYS ISLAND CHRISTIAN  
ACADMEY**

We really appreciate the time and effort that Coach Comfort put into our soccer program this year here at PICA. The team spirit was outstanding and our students proved that they can really work together and maintain their Christian values.

Girls and boys basketball is on the horizon, with practices already underway. We are looking forward to the exciting games and performances of our outstanding cheerleading squad. We want to thank Alan Bass, Ricky Bass, Lori Hurston, Leslie Strickland and Penny McClellan for all their time and effort working with our students.

*Thanksgiving*

*The celebration we now popularly regard as the "First Thanksgiving" was the Pilgrims' three-day feast celebrated in early November of 1621. Eleven months prior, they had landed on the coast of what is now Massachusetts. One hundred and two seafarers left England, sailing for a new world that offered a promise of both civil and religious liberty. The Pilgrims were Separatists who rejected the institutional Church of England. They believed that worship of God must originate in the inner man, and that corporate forms of worship prescribed by man interfered with the establishment of a true relationship with God. Starvation and sickness during the ensuing New England winter killed nearly half their population. By today's standards, they would have packed it in and returned to England. However, these courageous men and women were committed to the vision of religious freedom and guided by the conviction of God's divine providence. They persevered, prospered, and the rest is history.*

*Secular progressives deny that our country was founded upon Biblical principles by God-fearing men and women. Celebrate this Thanksgiving holiday in the fashion of our forebears, in humble acknowledgement and heartfelt gratitude for God's blessing upon His people and our nation. God Bless!*
